# What's wrong in male/female relation

ts a long story. But it begins very simple. Men fuck women.  
Thats it. -and where is the problem- a man must be allowed to fuck his wife  
when he wants. Nowadays they say both have to agree to have sex. Thats  
nonsense.

Especially nowadays when a man sees so many women wearing nearly  
nothing in summer, a man must be able to fuck his wife every day. And when  
its not possible, than there are other ways to have sex. Thats it

-but this is not allowed anymore. There are laws.

Evolution does not care about this fucking nonsense.

Its a play. When you get hurt in football. Can you go to the police. no.  
everybody knows when you play football, the other team tries to grab you.  
Male-woman relation its the same. When you have a close relation you should  
make a contract. It shows that you are playing this evolutionary game. Man is  
allowed to fuck his woman.

And if the woman does not agree.

Then you need another woman. You still can play pokemon with 1<sup>st</sup> one.

I will tell you more in the next weeks  
bye
